Seriously? How can you not adore a woman with pigtails, tattoos, and a welding helmet? :)

They work for me.

Oh, I see the problem. A second http:// crept into the bottom one. All fixed!

For some reason, the first was also claiming to be forbidden, but it works now. Maybe it the internet gods decided I was authorized after all.

The internet gods decree that everyone should be able to view the hotness that is Scottie.

Alas; they frown on me. Still, I'll take your word for it.

(Just a drive by friends of friends of friends reading. It's a quiet night over here. Hope you don't mind.)

Fortunately, you can't see my face contort as I attempt to pull off a lie that big.

OMG! Did you see her bacon pecan pie recipe? My arteries solidified just reading it. but it looks really good.

 [cvillette](#)

[August 5 2008, 03:12:24 UTC](#) [COLLAPSE](#)

This pie?

Why no. Never ever.

She is the perfect woman. There's no way around it.

perfect except for living on the wrong coast!

The second one does not work for me, alas.

Scottie *is* hot, but Kari's more my type.

 [cvillette](#)

[August 5 2008, 03:12:46 UTC](#) [COLLAPSE](#)

Kari's adorable.

But can she weld?

 [beatriceeagle](#)

[August 5 2008, 03:14:23 UTC](#) [COLLAPSE](#)

I honestly have no idea, but I bet O could turn welding into a blues euphemism.

...

Yeah, I'm gonna have to agree with that.

Who needs competition, really?

 [trinker](#)

[August 5 2008, 16:41:05 UTC](#) [COLLAPSE](#)

...I can.

Umm...'scuse me, I'm not quite flirting, really. I'm just pleased to see women who weld, and darned proud of having learned how myself.

Ooo.

:) Living on a steel boat, is truly nifty to be able to weld! Took a great summer session class on basic welding techniques at the local (well, sorta, 40 miles+ on a motorcycle each way) community college, and learned to stick, mig, and tig weld.

It's an expansion of the "plays with fire" thing - cooking, silversmithing (which I haven't done in far too long, alas) and now welding. Whee!

Hmm, I also had troubles with the second pic, but now that it's working for me I must admit that it is full of hotness, even though my taste in women usually runs a different way.

Ain't nothing sexier than a confidant and capable woman, to my mind.

Ahhh, Romanadvoratrelundar, you still make my hearts skip a beat, even after all these years...you never forget your first Nerd Crush. Dreaming of running calibration computations for the chameleon circuit, wishing to take her to Barcelona to pet the Dogs With No Noses...*memory-filled sigh*

Romana, certainly.

But Lalla Ward? That part I'll have to take your word on.

As I will for the Scottie bit, actually. Though I know a cute welder or two, my tastes run more toward Grant. (Who never gets enough screen time, btw. Except during the seasick episode, which I don't count.)

Hmmm. I said this somewhere on the intertubes before, but there are some women that pictures dont do justice to. You have to see them, and witness their personality. Otherwise you just cant see the spark that really sets them off.

With that said, I suppose that I should look on youtube for some videos to see for myself. *grin*

Hey, dude, do me a favor and tell me what, if any, filters you want in on. If I ever start working on the cookbook(s) (again), I'd value your feedback.

[cvillette](#)

August 6 2008, 01:33:55 UTC [COLLAPSE](#)

Oh, heck yeah, put me on the cookbook filter. I had a moment of fear there, but your filters are worksafer than the filters of some of my friends,

[inaurolillium](#)

August 6 2008, 01:39:03 UTC [COLLAPSE](#)

I promise, any non-work-safe stuff will be behind clearly labeled cuts as well as filters. I'll put you on the Subtleties filter, too, so you can see the Trout in Nightgowns when/if they ever happen.

[cvillette](#)

August 6 2008, 01:43:11 UTC [COLLAPSE](#)

Trout?

In *nightgowns*?

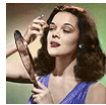

...You're sure that's worksafe?

[inaurolillium](#)

August 6 2008, 01:48:16 UTC [COLLAPSE](#)

>:D Yup, I'm sure! They're nice, demure, Victorian-esque long nightgowns.
